TO THE WEST! TO THE WEST!
Before making your arrangements to fol-
low the advice of the "thousands who have
already gone," it would be well to consider
what has been done to make the journey to
your "Homes in the West" as pleasant and
free from danger as human skill and fore-
sight can accomplish.
By consolidation and construction, a road
has been put into operation on the shortest
possible line from Nashville, Tenn., to St.
Louis, "the future great City of the world."
This line, the
ST. LOUIS & SOUTHEASTERN RAIL-
WAY,
has, during the past year, earned an en-
viable reputation by its smooth track, prompt
time, sure connections, and the magnifi-
cence of its passenger equipment. Its
trains are made up of new and commodious
day cars, provided with the celebrated Mil-
ler coupler and platform, and the Westing-
house air-brake.
It is positively the only line running
Pullman Palace Drawing-Room Sleeping
Cars through without change from Nash-
ville to St. Louis. No other line pretends
to offer such advantages, either in distance,
time, or equipment. Why, then, journey
by circuitous routes? Do not be induced
to purchase tickets to St. Louis or the
West by any other line, remember that
the "St. Louis & Southeastern"
is the shortest, cheapest, quickest, best and
only line under one management from
Nashville to St. Louis, and is from 60 to
200 miles the shortest to St. Louis, Kansas
City, Omaha, Denver, California, Texas,
and all western points. It is also the "Chi-
cago Shortest Line," via Evansville.
You can secure the cheapest rates for
yourself and your movables on applica-
tion, in person or by letter, to CHARLES
McCABE, Southern Passenger Agent, near
College street Depot, Nashville, Tenn., or
to the undersigned.
W. B. DAVENPORT,
General Ticket Agent, St. Louis.

The election to be held on Thursday, August 7th, 1873.

VOTE for the Amendments and you vote for repudiation.

THE Constitution is good enough as it is. What is the use of changing it?

EACH of the eight ballot-boxes will be labelled with the title of the proposed amendments to the Constitution, and the tickets will read, "For Amendment," and "Against Amendment."

REMEMBER that an enumeration is not a census, and that if we do not have an enumeration of the people in 1875 the present unjust Senatorial apportionment will continue until 1882, if not longer.

THE election is progressing quietly as far as we can learn all over the State, but it will be several days before we can learn the result. Our readers are well aware that "great Democratic gains" always come over the wires first, and that we will hear but little of the official vote for some time. Party lines are not drawn very closely in this election, for although the Democrats will vote solidly for the amendments, the Republican vote is divided and no one can tell the result by a comparison of the vote polled any previous election. We advise our friends therefore to refrain from betting on the result, and await with what patience they can for the official returns.

Instructions.

As the method of voting on the Constitutional Amendments is not thoroughly understood by the people, we publish the following, that there be no mistakes.

There must be eight boxes at each voting place, beside those for township officers, on each of which must be labeled the amendment to be voted upon. In this county the labels will be printed in large, plain type, that there be no mistakes.

The following is the form of each label:

Amendment to the Constitution of North Carolina in relation to the Public Debt.

Amendment to the Constitution of North Carolina in relation to the office of Superintendent of Public Works.

Amendment to the Constitution of North Carolina in relation to the State Census.

Amendment to the Constitution of North Carolina in relation to exemption from taxation.

Amendment to the Constitution of North Carolina in relation to the University.

Amendment to the Constitution of North Carolina in relation to the sessions of the General Assembly.

Amendment to the Constitution of North Carolina in relation to the Code Commissioners.

Amendment to the Constitution of North Carolina in relation to Federal and other officers holding office.

The ballots may be written or printed, and need contain but the words "For Amendment," or "Against Amendment." In this county the tickets against the amendments are printed in slips of eight, so that each voter can tear them apart for each box as he votes. All persons opposed to the amendments should vote "Against Amendments."

The polls must be kept open from 8 A. M. to 7 P. M., and all qualified voters are entitled to vote, provided they are regularly registered. No one can register on the day of election, unless he arrives at the age of 21 on that day, and all voters should see that their names are on the registration books.

Copper ore has been found on the land of James Garvey, near Jefferson, Ashe county.

Men encourage boys to fight in Magnolia. The Monitor wants them "padded until their noses bleed." The boys—not the men.

EDITORIAL BUDGET.

—The Marquis De Noailles had a lengthy interview with the Postmaster General in reference to the postal reduction between France and the United States. The result of this interview is yet to be made manifest.

The following portion of the Queen's speech which was read in Parliament by a Commission will be read with interest. A synopsis has already been received by telegraph:

My LORDS AND GENTLEMEN: I am now released from the necessity of calling upon you for further prosecution of your arduous occupations in bidding you farewell for a recess. I make it my first duty to thank you for the loyal promptitude with which you have made further provision for my son, the Duke of Edinburgh, on the occasion of his approaching marriage. This marriage will, I trust, form a new tie of amity between the two empires. The best relations continue to exist between myself and foreign Powers. I am able to announce the successful termination of the mission to Zanzibar. Treaties have been concluded with the Sultan of Muscat and other native Powers, which will provide means for the more effectual repression of the slave trade on the coast of Africa.

—Mr. Henry Dalton, the famous California pioneer, and the most extensive grapevine grower in that State, is now in Washington. He lives in Los Angeles county, in the Southern portion of California, and one of its most fertile tracts. He states that the Central Pacific railroad, which, when completed, will extend from San Francisco through the Tulare or San Joaquin valley, is now completed to Delano a point 180 miles north of Los Angeles. The Central Pacific is extending its lines in such a manner that Los Angeles will be a point on the trunk line. This will have the effect of making it the commercial emporium of Lower California. Efforts will be made to dredge the harbor of San Pedro, 15 miles distant from Los Angeles, to admit of the passage of merchantmen close to its shores, and thus save the labor and time now involved in the use of coasters and reshipment of freight at San Diego, 130 miles from Los Angeles.

—Five tank boats filled with oil moored to the dock of Rockefeller's oil works, at Hunter's Point, Long Island, exploded Tuesday morning, and set fire to barrels and tanks of oil in the yard. The fire spread almost instantaneously, and enveloped some three squares occupied by the oil works of various parties. There was a very light wind, and the volume of smoke ascended to an immense height, and was of a density such as was never before seen here, covering Brooklyn completely from the sunlight, and extending for a mile over the bay and out to sea. The firemen, who were promptly on hand, were unable to approach the yards or docks, owing to the intense heat and suffocating smoke. Pratt's oil works, the Long Island City oil works, Lorrensten's varnish factory, and other oil works were consumed, and several buildings in the vicinity. Captain Meyers, of one of the tank-boats, is reported killed by the explosion, and a large number of boatmen jumped into the water to escape roasting alive. The fire burned from three o'clock all the afternoon, and was still burning at night. Various rumors of a large loss of life are current.

The Battleboro Advance says "the Supreme Court has decided that the act of the legislature transferring to Franklin a portion of the territory of Granville was constitutional. This question has excited great interest in the two counties, and much anxiety was felt as to the result. In a political point of view, it is a conservative triumph; for Granville, on account of the large ascendancy of the negro population in the county is hopelessly Radical, and the part added to Franklin contain a majority of white votes." Had the court decided the other way, the whole democratic State press would have howled over a corrupt judiciary. The court endorsed this little gerrymander game and should be free from the charge of political affinities again.

We have just "interviewed" Robert Smith, 72 years old the 8th of June, who has, with one other hand, tended 40 acres in corn this summer, and who has walked to this place to-day, from a point eight miles beyond Lincoln—making 23 miles, and who expects to go to his son's, in Caldwell county, this evening 17 miles off. He hasn't come to his wind yet, and will make the trip with ease no doubt.—Rutherford Vindicator.

The Magnolia Monitor brags on sweet potatoes, "the first of the season." We have had them here so long this year that many of them would reach a mile, and they are all bald headed.

CORRESPONDENCE.

KENANSVILLE, N. C., Aug. 4, 1873.
MR. EDITOR: In our former correspondence your intelligent readers were promised a description of those curiosities of nature, the Natural Wells, two in number, and situated about one and a half miles west of Magnolia. We made enquiries and endeavored to gain all the information extant concerning them, but succeeded in deriving but a limited history, and none of much interesting historical or romantic facts.

The land upon which they are situated is in every particular the same as our common pine forests, and is owned by the heir of a Mr. Taylor, deceased. These wells are situated about one quarter of a mile distant from each other, and are nearly perpendicular from the surface of the earth to the water, which is a distance of some fifty feet. They are about forty feet in diameter, and the surrounding earth of clay. You descend to the water by means of almost perfect natural steps, composed of pebbles and shells of the same species that are so abundantly found along our coast. An excellent spring, some four or five feet from the surface of the water, is to be found in one of these wells, whose cooling draught amply repays the thirsty adventurer for the trouble expended in descending. At the surface of the water, clinging to the surrounding earth, is to be perceived sponge and moss of the kind that grows on the seacoast and in our swamps.

It is stated that on a certain occasion a rock was fastened to the end of a ball of yarn, three hundred feet in length, which was unrolled, and its entire length "payed out," but it was found impossible to obtain bottom. It is alleged that a strange phenomenon exists in its waters, viz: That if two sticks of any length, providing not too long to touch the surrounding earth, is placed upon its water, the one on the North and the other on the South side, that the former will remain afloat, while on the contrary the latter will instantaneously disappear from sight.

In one of these wells, near the water, is a cave, which upon entering is distinctly audible a rumbling noise, corresponding to the breakers when dashed along the seacoast.

The above forms the basis of all the information obtained, although there may be other peculiar singularities of much more interest to the general reader, known by older citizens of the county.

Pic Nics form the principal sources of enjoyment, and in fact seem to be the ruling passion of the day in this section, barring the usual topic of crops, and a "smattering" conversation of politics. Several have taken place quite recently, and "everybody and his wife" seemed on each occasion to have enjoyed themselves hugely. Several are now on the tapis, and one, if to judge from present indication, that is to take place at Warsaw on Friday next, bids fair to be the crowning pic nic of the season, the day's enjoyment to conclude with a grand ball at night. Seventeen gentlemen have been appointed as managers of the day's festivities, and they promise that every thing shall pass off harmoniously, and that no one will leave regretting his or her attendance.

A lad, but recently learned to swim, had a very narrow escape from drowning on Thursday last, while bathing in the mill pond of Mr. B. R. Cooper. Having ventured some distance he became exhausted and sank, and would in all probability have filled a watery grave, if several gentlemen near by had not hastened to his assistance, and by almost superhuman efforts succeeded in once more placing him on "terra firma."

The sleeping apartment of a Mr. Carroll was entered on Wednesday night about 12 o'clock, by a colored man in his employ, with premeditated robbery, as he afterwards confessed; but unfortunately for him his attempt was frustrated by Mrs. Carroll, who was aroused by a piece of furniture near the bed being overturned while he was groping his way in the dark. She immediately gave the alarm, which caused the man to beat a hasty retreat, closely followed by Mr. Carroll, although unperceived, who reached the open door of the scoundrel's sleeping apartment just as he sprang into bed. When the gentleman entered, the thief was to all appearances in a deep slumber, feigned, of course, for the purpose of evading suspicion.—Mr. Carroll "went for him," but the negro soon convinced this gentleman that it was not his intention to tamely submit to arrest. He was soon overpowered by a well directed blow from the fist of Mr. C., which struck him on the nasal organ and felled him to the floor, when he was securely tied with a rope, and marched off to the jail in Kenansville, where he is now confined, in default of proper security, and will remain until next term of Superior Court.

This section was the recipient of a thunder storm every day the past week, followed with gentle and refreshing

showers, by no means so abundant as to damage the crops, which are now almost universally laid by, and which bid fair to reach the most sanguine expectations of the farmers, now that the injuries caused by the severe droughts have been entirely overcome. In fact, the crops present a healthy, promising appearance, and will no doubt produce fully an average yield.

NEW ADVERTISEMENTS.

At a meeting of the Liberal Republican Club, held last evening, the sentiments of the President and others were expressed in regard to the future of the organization. When the following resolutions, offered by J. M. Wise, were unanimously adopted: Resolved, That this Club, as a body of working men, interested in the political problems of the future to the extent of self-protection against the unwholesome alliances now placed between corrupt and dangerous officeholders and the representatives of money, do issue a call through the press for a grand council of the friends of reform to meet at the city hall, to carry forward the work of purification by the ballot.

ANOTHER GALA DAY

Of the Carolina Yacht Club—The
Retta Victorious, and the Prize
carried to Masonboro'—That Clock
won't Tick in Wrightsville.

Of all the days that could have been
asked for, none could have been more
propitious than was yesterday for a boat
race, and there was never a more enjoy-
able day spent by delighted yachtsmen
on the waters of the Sound. Yesterday
was the time set for the second regular
regatta of the Carolina Yacht Club,
over the usual course at the Sound, and
long before the appointed hour, the
waters were flecked with the white sails,
and dotted with the many boats, all
hurrying towards the wharf of the Yacht
Club at the Banks, carrying the delight-
ed and interested participants and spec-
tators.

Soon the throng had assembled
on the white, shiny sands of the beach;
the merchant had left his counting
house to invest in sea breezes and hil-
larity; the banker had deserted his
money bags and tried his luck and made
a run on the Ocean Banks, and took
stock in the prevailing excitement; the
lawyer had left his client, and the client
had followed his lawyer; the doctor
thought his patient well enough off to
leave for a few hours, and the patient
found the invigorating breeze from old
ocean a panacea for his many ills; the
naval store man, and the clerk, and the
farmer, and the fisherman, and the boys
were there, and the ladies, without
whom no party is complete, and with-
out whom a yacht race would be a tame
affair; all were there.

The day was cool, and calm, and
bright. The early morning found the
sky flecked with light, fleecy clouds,
which had all disappeared before noon.
Old Sol kindly withheld many of the
fervent rays with which he has favored
us for weeks past, and with a stiff, cool
breeze from East North East, every one
felt that a more favorable time could
not have been had for the race.

At five minutes past four o'clock, the
Club signal (a large swallow-tailed
white flag, with a red star in the centre)
was displayed from the flag pole at the
Club House, which indicated that the
race would begin in a half hour from
that time, and promptly at 4:35 o'clock
time was called by the judges, and the
contesting yachts sailed out in the fol-
lowing order—the figures opposite the
names of the yachts indicating the num-
ber of seconds that each yacht left after
the preceding one:

Names. Captains.
1—Little Sister, Clayton Giles, leading
2—Lilly, J. L. Maffitt, 75
3—Undine, J. J. Fowler, 35
4—Que Vive, W. A. Wright, Jr., 27 1/2
5—Jenny Q., Benj. Farrow, 12
6—Retta, H. C. Cassidey, 12
7—Carolina, C. E. Burr, 45

The race was over the old and usual
course—that is, from the wharf of the
Club shorewards and around buoy No. 1,
at the mouth of the London channel,
thence back and down the main chan-
nel to and around buoy No. 2 near the
inlet; thence back and in and around
buoy No. 1; thence down the main
channel again around buoy No. 2 the
second time; and finally passing buoy
No. 3, which completed the distance to
be sailed—about seven miles.

It was a most beautiful sight when
the yachts bounded away with a leading
breeze from the starting point on their
courses, the smaller yachts in advance
of the larger; and many were the spec-
ulations as to what would be the result.
After rounding buoy No. 1, and the real
tug had commenced, it was seen that
the Retta was in advance of the fleet,
and rounding in gallant style the point
of march on the West side of the chan-
nel, opposite the wharf, while the other
yachts had to tack ship, she soon placed
wide gap between herself and the next
succeeding yacht. This advantage, so
skillfully won, was not lost by her, nor
overcome by any of the others; and it
having become a foregone conclusion
that the Retta was to have that clock,
attention was directed to the rearward
yachts. Soon the favoring gale had
wafted the fleet on the home stretch,
and like a prancing charger the Retta
was in, followed by the others, the fol-
lowing order and time having been

announced by the judges: The time of
the arrival of the Retta being given,
and the figures opposite the names of
the other yachts indicating the time of
their passing the home buoy after the
yacht which preceded them:

1—Retta, 6:06 o'clock.
2—Carolina, 2m 15 sec.
3—Qui Vive, 6:15
4—Little Sister, 45
5—Jenny Q., 2:00
6—Undine, 08

The Lilly returned without complet-
ing the entire course. There was no
accident to mar or interrupt the pleas-
ure of the occasion, and as soon as the
yachts had all landed their crews, it was
announced that the awards would be
made and the prizes delivered at the
Club House, and on repairing there,
and the awards having been made,
Capt. J. N. Maffitt was called on to de-
liver the prizes to the Captains of the
successful yachts which he did in one
of his most happy veins, amidst ap-
plause and shouts. The first prize, an
elegant bronze French clock was pre-
sented to Capt. H. C. Cassidey of the
Retta, who seemed to find words inade-
quate to express his pleasure. He is
an expert at managing a sail boat, and
the nautical terms and expressions that
passed between Captain Cassidey and
Captain Maffitt were incomprehensible
to any but old salts and yachtsmen.

Mr. E. E. Burruss in behalf of the
Carolina received the second prize (an
elegant silver butter dish) which he,
through Mr. Wm. A. Wright, returned
to the Club as a Club Prize, to belong
to the Club and to be in the custody of
the winner of it after each recurring
regatta.

The third prize, a massive gold lined
silver goblet was awarded to the owner
of the Qui Vive, Capt. W. A. Wright,
Jr., and received by him in a neat
little speech, and the fourth prize a
pair of ash oars was presented to Cap-
tain Clayton Giles, of the neat and
trim "Little Sister."

The Club are under obligations to
Captain J. N. Maffitt and Messrs. F.
W. Kerchner and C. C. Morse for the
care and precision with which they
acted as the judges of the race, and
also to the other gentlemen officers of
the Club for the skillful manner in
which they performed their respective
duties; and the guests of the Club are
under many obligations to each indi-
vidual member thereof for the hospi-
tality extended to them.

The presentations and speech making
over, the gay and festive throng started
homewards, and as the sun was sinking
behind the far off western hills the
water seemed alive with the many craft
winding their way towards the main
land, one happy little boy in the Retta
as she started homewards, placing his
hand affectionately on the first prize
which he was helping to carry home,
remarking, "Well, this clock won't tick
in Wrightsville, not much."

Published every evening, except Sunday, at

Five Dollars per Annum.

The Post is designed to reach all classes of citizens, and its subscription price is therefore placed so low as to be within the reach of all. It contains the

LATEST NEWS,

up to the time of going to press,

TELEGRAPHIC,

COMMERCIAL
AND LOCAL.

It should be in the hands of every man who desires to know what has transpired during the day, and, as it aims to give

RELIABLE INTELLIGENCE,

its publisher hopes it will prove a welcome guest in many families.

THE POST

is sprightly without being sensational, and it carefully excludes all objectionable incidents and reports calculated to offend the sensibilities of the most fastidious. As an

Advertising Medium

it claims to be first class. It has a good and constantly increasing circulation, and is read by almost every business man in the city.

Politically the Post is

UNSWERVINGLY REPUBLICAN.

Its editor having been a consistent member of that party since 1855, through its vicissitudes and triumphs, he claims to speak advisedly when advocating its principles. He is not, however, an "extremist," and accords to others what he claims for himself, the right of free thought and of free speech.

THE ADVERTISING RATES of the Post, like its subscription price, are at liberal and at living prices, as an examination of them will show, and it bespeaks a share of public patronage.

THE EVENING POST

is closely identified with the local welfare of the Cape Fear region, and the believers in progress, whether

EDUCATIONAL,
AGRICULTURAL,
MECHANICAL, or

will find an enthusiastic ally in THE

We especially call the attention to the following testimonials of the Paint:
C. P. Knight, Esq.—Dear Sir: I have used Bradley's Patent Enamel Paint on my dwelling last Spring, and am much pleased with it, and it looks as well now as when first painted, and consider it a good Paint. Yours, truly,
Creswell P. O., Hartford county, Md., Feb. 6th, 1873. A. H. STRASSBAUGH.

THE PLAINS, FAUQUIER CO., VA., Feb. 6th, 1873.
Mr. C. P. Knight—Sir: The Paint came safely to hand as ordered—two kegs, five gallons each, and three buckets, one gallon each. As practice was slack, I did the job myself. Two weeks (not constant work), completed the house two coats. The last coat I applied thick, and it is now generally conceded that for enamel-like hardness, and body, and harmony of color, there is not a handsomer job in the place. I saved thirty-five dollars by the operation, which is an item just now with Southern people. It should be generally adopted in this State. Any country lad can apply it. I have never dabbled in such stock as testimonials, but I feel so forcibly the great adaptability of your "Enamel Paint" to the wants of our people, in excellency of material, in beauty of color, and in the fact of its being "ready mixed" that I give you free permission, (if it is desirable to you), to make what use you think proper of this letter.
Very respectfully and truly,
S. MCGILL, M. D.

TO THE PUBLIC.—It affords me much pleasure to state that in July, 1871, Front Street Theatre was painted inside and out with "Bradley's Patent Enamel Paint," for which C. P. Knight, No. 93 West Lombard Street, is agent, and to testify to its superiority over any and all other paints for similar uses. In no private dwelling can paint possibly be subjected to the very severe test it undergoes at this establishment, where, during our daily cleaning, soap and soda are constantly applied to it, and yet it appears as sound and fresh as when put on. Of the numerous advantages it possesses over other paints, I will only mention its being mixed and ready for use in quantities to suit purchasers, its quickly drying properties, which saves much time in the execution of work where paint is needed, and its very perceptible tenacity, which imparts beauty and durability to the objects on which it is used. As such I most earnestly recommend it to the merchants and tradesmen of our city, believing it will give them greater satisfaction than they can possibly anticipate.
WM. E. SINN,
BALTIMORE, April 25, 1873.

Front Street Theatre.
CHAMBERSBURG, December 10th, 1872.
Mr. C. P. Knight—Dear Sir:—The paints we received from you have been applied to several of our own buildings and to those of our friends, and have given entire satisfaction in covering qualities, in gloss, and in adaptability to all kinds of surface of material, and we cheerfully recommend it, especially to that class of consumers who have to depend upon unknown parties, or painters to mix and furnish materials, wherein we have found the most deception.
Yours, truly,
JACOB STOFFER & SON.

FROM HON. JOHN WETHERED.
Mr. C. P. Knight:—At the recommendation of a friend, I was induced to apply your patent "Bradley's" paint to my house. I have pleasure in stating that it has proved highly satisfactory, covering more surface than you promised, is more economical, carries better gloss than ordinary paint, and is free from disagreeable odor.
Yours, Respectfully,
JOHN WETHERED.

BALTIMORE, December 27th, 1871.
C. P. Knight, Esq., Agent for Bradley's Patent Enamel Paint—Dear Sir:—The paint we purchased from you will be cheerfully endorsed as the best of any kind we have ever used; its covering qualities are everything desired, drying promptly and with a hard gloss, which must, we think, resist the action of all kinds of weather. This is our experience, and we can recommend it with certainty, and intend to use it on all occasions where we desire a good job of work.
Very Respectfully,
EMART & QUARTLEY, 270 W. Baltimore St.

Mr. C. P. Knight—Dear Sir:—I am very happy to inform you that your "Patent Enamel Paint" has given entire satisfaction. I prefer it to any paint I have ever seen used, and recommend it for durability and beauty as paramount to any other.
Very Respectfully,
C. P. KNIGHT, Sole Agent,
No. 93 W. Lombard Street, Baltimore.

Harper's Magazine.

NOTICES OF THE PRESS.
The ever-increasing circulation of this excellent monthly, proves its continued adaptation to popular desires and needs.—Indeed, when we think into how many homes it penetrates every month, we must consider it as one of the educators as well as entertainers of the public mind, for its vast popularity has been won by no appeal to stupid prejudices or depraved tastes.—Boston Globe.

The character which this Magazine possesses for variety, enterprise, artistic wealth, and literary culture that has kept pace with it, has not led the times, should cause its conductors to regard it with justifiable complacency. It also entitles them to a great claim upon the public gratitude. The Magazine has done good and not evil all the days of its life.—Brooklyn Eagle.

THE NEW YORK WEEKLY TIMES

AS A FAMILY PAPER.

The Times will have no superior; it will be free from all appeals to vulgar and impure tastes, and may be safely admitted to every domestic circle.

AS A REPUBLICAN JOURNAL.

The Times will be devoted, as in the past, to an intelligent and firm support of the Republican Party. Its course in reference to the Tammany King, at a time when all the other daily papers in New York observed neutrality, and even the "New York Times" stood aloof, is a sufficient proof of its sincerity in the cause of Reform.

THE TIMES stood alone in demanding Reform from 1869 to the close of 1871, and there is no sincere and honest proposal for Reform, in any branch of the Government, which will not be heartily supported by the Times. But it will not confine its assistance to ambitious politicians or demagogues to reach power under false pretences. It will not encourage defection from the Republican Party, which is still the party of progress, security and national prosperity.

It will sustain, with all the force and influence at its command, the principles and policy which have rendered that party so justly famous in our history. It will advocate those measures by which the honor, the peace, and the prosperity of the nation can be best secured and promoted, and will constantly study the wants of the people, and the wishes of the politicians.

THE NEW YORK SEMI-WEEKLY TIMES

Is published every Tuesday and Friday, and contains all the agricultural and literary matter of the Weekly edition, and a full and careful compilation of editorial and news features of the Daily Times.

Terms of the Semi-Weekly Times: One copy, one year, \$3; two copies, one year, \$5; ten copies, one year, \$25; and one extra copy free.

Subscriptions to either of our editions received for a less length of time than one year at yearly rate.

These prices are invariable. Remittals in drafts on New York or Post-office Money orders, if possible, and where neither of these can be procured, the money in a registered letter. All Post-masters are obliged to register letters when requested to do so, and the system is an absolute protection against losses by mail. Address: THE NEW YORK TIMES, New York City.
